Unique Electronic Identification of Commercial Motor Vehicles

FMCSA requests public comment:

- Should every CMV operating in interstate commerce to be equipped with electronic identification (ID) technology?
- Capable of wirelessly communicating a unique ID number when queried by a Federal or State motor carrier safety enforcement personnel.
- Would it improve the efficiency and effectiveness of the roadside inspection program by more fully enabling enforcement agencies to **focus their efforts at high-risk carriers and drivers.**

ELDs

FMCSA solicits public comment on ways to improve the **clarity of current regulations** on the use of electronic logging devices (ELD) and address certain concerns about the technical specifications raised by industry stakeholders.

The Agency seeks comment in five specific areas in which the Agency is considering changes: applicability to pre-2000 engines; addressing ELD malfunctions; the process for removing ELD products from FMCSA's list of certified devices; technical specifications; and ELD certification.

Comments on this notice must be received on or before November 15, 2022.

- Use of technology to identify cell phone users and seatbelt use.
